MEET THE TEAM

LAUREN & AUSTIN

The Ivory Oak

“The food was a HUGE part of our wedding day since we absolutely love food (lol) and Peached Tortilla was the best decision we could have made. We wanted to steer clear of typical, and they executed everything perfectly. From tuna shooters, to pork belly bites, to spicy chicken tacos, everything was insanely good. People have not stopped talking about it. The service was also classy, fun and just outstanding. I know so much hard work goes into this type of service and our appreciation for what they created and delivered on our wedding day is beyond words. Thank you Peached for bringing joy to our day. It was a dream.”

JESSIKA & NICK

Mercury Hall

“Our guests couldn't stop talking about how good the food was! Days later we still had people telling us how impressed they were with the food. It was so seamless, that I barely saw the staff. I was just in my own little bubble of happiness and so grateful that I wasn't stressing about the timeline or details of the day. I truly can't recommend The Peached Tortilla enough! If great food, service and communication matter to you at all, you have to book them! You won't be disappointed.”
