NEW MEXICO

PACKAGES

01. month of \$2,100

This is what people refer to as day of coordination, or wedding day management. This is more than just day of coordination and it is our smallest package that we offer. It comes with unlimited communication from the start and a detailed timeline/agenda/layout/resource portal. We do not fully step in and take over until 30 days prior to the big day. At that point, we do all of the vendor communication, walkthrough, your rehearsal, and two planners on your actual wedding day from set up to breakdown. Many brides really rely on the unlimited communication upfront, which allows us to focus and specialize on tying together your final details right before the big day.

02. partial \$3,500

This also comes with unlimited communication and everything in the month of package. We do step in much earlier than that 30 day mark in order to connect you to our preferred vendors and assist with sourcing additional items. This package is for the bride that has not locked in any or most vendors, but also needs some guidance along the way. We act as the primary liaison with vendors from the start, which really supports the couples that don't have the time to devote to vendor communication. Additionally, this package includes design! We schedule a design meeting at your venue and offer our expertise with color palette, vision, decor, and overall aesthetic. We create a custom look book that will show you how to execute your vision. You also get a complimentary invitation/save the date design, as an added bonus.

03. full service \$7,500

We do it all with our full service package! We attend all of your meetings with or without you, schedule weekly check in calls, assign tasks, review your contracts/payments, assist with budget and offer several checklists/comparison worksheets along the way. We are the primary liaison on ALL communication with your vendors. This package also includes the Glam photo booth and \$500 worth of signage (i.e. place cards, menus, guest favors, etc.) We keep you on track from the beginning to the end of the planning process: from telling you when it's time to send your save the dates, addressing and sending your invitations, and even assisting with your hotel blocks and transportation options!
